INTRODUCTION

This booklet contains all the necessary information which WJEC registered centres* will need to submit entries for WJEC Eduqas qualifications and covers all examination types and all examination series during the 2026/27 cycle.

A comprehensive list of entry codes is included in this booklet and should be used in conjunction with subject specific information included in the subject specifications.

In addition to the entry regulations contained in this booklet, centres are also referred to the following documents available on the WJEC or Eduqas websites:

- WJEC General Conditions for Approved Centres
- WJEC Terms of Business

Centres must also refer to the JCQ publication "General Regulations for Approved Centres" published annually in September.

The JCQ General Regulations cover:

a) the agreement between centres and awarding bodies;
b) the responsibilities of awarding bodies in providing administrative, subject-specific assessment and quality assurance support for centres;
c) the responsibilities of centres during preparations for examinations/assessments and post-examination/assessment activities;
d) personal data, freedom of information, and copyright
The General Regulations are not intended to be relied upon to ensure compliance with the legislation.

Additional information regarding data protection is available in our privacy notice, which is published on our website.

ENTRY FEES

Information relating to entry fees can be found on the WJEC or Eduqas websites in our **Entry fees documents**.

NB - *Registered centres: Entries can only be accepted from institutions which have formally registered as an examination centre with WJEC. If your centre wishes to submit entries and is not yet registered as a centre, please contact the Centre Management Team at WJEC for an application form.

Back to Contents

METHODS OF ENTRY

Entries for the examination series included in this booklet may be submitted in either of the following formats:

Please note only one entry file must be submitted for each examination session regardless of the method used. All subsequent files must be amendment files and created using the same method as the entry file.

METHOD A – DATA TRANSPORT APPLICATION (EDI)

Centres are particularly encouraged to use this method of entry. The Data Transport Application allows centres to transport and receive EDI files and is a free application, provided by AVCO on behalf of the JCQ awarding bodies. It requires centres to download the relevant exam series basedata from the WJEC website and import into the centre MIS. Most centre administration packages can easily connect to the Data Transport Application.

Centres using this method of entry should already have downloaded the Data Transport Application and ensure they are using the latest version of their MIS before downloading basedata. Further information about basedata is provided on page 3. If you have not yet downloaded the Data Transport Application you should visit the AVCO website.

The formats for generating files are defined in the booklet "**Formats for the Exchange of Examination Related Data (Version 14, revised December 2023)**." This document is available to download from the Joint Council for Qualifications website.

If you experience a technical problem when trying to download the Data Transport Application please try your local IT support in the first instance. Most problems are often resolved by support teams who know their networks and firewalls. Your software provider or local authority may also provide advice and support. Centres requiring more information about the submission of electronic entries (EDI Files) or the use of the Data Transport Application may call WJEC helpdesk on **029 2026 5169**.

For all files sent via the Data Transport Application, the unique 13-character candidate identifier (UCI) is compulsory.

METHOD B – ONLINE ENTRIES VIA WJEC PORTAL

This method involves the inputting of candidate entry details for each candidate directly on to the WJEC Portal . It is therefore only suitable for centres that do not have an MIS, or who are submitting only small numbers of entries.

Centres requiring more information about using the Online Entries can email our Entries department however a detailed user guide for the Online Entries system is available to download from the WJEC Portal.

All candidate and subject details for the centre should be entered into the system and, following the submission and processing of completed entries, the WJEC Portal will be updated within 48 hours with all relevant information. After submission of the online entry, further amendments may be made to candidates or subject details using the same system.

To enter a candidate through the medium of Welsh, click on the Welsh button next to the relevant subject (where available) or select the appropriate Welsh option.

Back to Contents

BASEDATA

Centres submitting entries via Method A, Data Transport Application will first need to download the basedata for the relevant series from the WJEC or Eduqas websites.
Basedata contains all the necessary information for the various subjects that WJEC offers, providing details of how each subject breaks down into its constituent parts, e.g. options, components, papers, maximum marks, exam dates, fees, etc.

It is essential that for each examination level and series, centres use the latest version of basedata available. Basedata for all unitised examinations will contain information on both units and Cash-In codes. **Centres must download the relevant basedata according to their geographical location**.

QUALIFICATION AVAILABILITY

WJEC GCE and GCSE qualifications are accredited by Qualifications Wales and are not available to centres in England.

Eduqas GCE and GCSE qualifications are accredited by Ofqual and are not available to maintained centres in Wales. This is with the exception of certain subjects that have been designated by Qualifications Wales for teaching by maintained centres in Wales and meet regulatory requirements in Wales and England. These subjects are indicated on the relevant pages, and more information is available on the 'Entries' section of our WJEC and Eduqas websites.

Centres in Northern Ireland should check availability with their regulator.

Any other restrictions for individual qualifications or subjects are listed on the relevant subject page.

OVERSEAS CENTRES

Overseas centres who wish to enter additional subjects should contact the Centre Management Team to discuss qualification availability before embarking on teaching the course.

Back to Contents

REGISTRATIONS

NATIONAL FOUNDATION QUALIFICATION

It is a requirement of the National/Foundation Qualification that centres must register candidates embarking on the course with WJEC.

Each registration must include candidate personal details (name, date of birth, sex) Unique Candidate Identifier (UCI), Unique Learner Number (ULN), and the relevant code.

Centres must submit registration details either by using the Data Transport Application or via the WJEC Portal. **Registration details must be submitted for every candidate embarking on the qualification. For all electronic files submitted that may be used towards the aggregation of the qualification, centres are expected to use the Unique Learner Number (ULN).**

The final date for receipt of registrations is 31 October 2026.

For learners starting their **National/Foundation Skills Challenge Certificate** in September 2025, there will no longer be a **National/Foundation Welsh Baccalaureate** qualification available for them to achieve at the completion of their studies in 2027. They will achieve the National/Foundation Skills Challenge Certificate only.

The National/Foundation Welsh Baccalaureate qualification was awarded in full for the last time in Summer 2026, with only a re-sit opportunity available in 2027.

ADVANCED SKILLS BACCALAUREATE WALES

Registrations are not required for the Advanced Skills Baccalaureate Wales, teaching from September 2023.

T LEVEL

It is a requirement of the T Level in Building Services Engineering Qualification that centres must register candidates embarking on the course with WJEC.

Each registration must include candidate personal details (name, date of birth, sex) Unique Candidate Identifier (UCI), Unique Learner Number (ULN), and the registration code for the T Level in Building Services Engineering Qualification.

Centres must submit registration details either by using the Data Transport Application or via the WJEC Portal. **Registration details must be submitted for every candidate embarking on the T Level.**

Back to Contents

AMENDMENTS TO ENTRIES

Any necessary corrections must be submitted using the method used for the initial entry:

1. **Submission of Amendments using the Data Transport Application**

   Centres should submit amendments via the Data Transport Application using the JCQ standard format for amendments. It is vital however that submitted EDI files contain details of candidates to be amended and additional candidates only. **EDI files which contain a resubmission of the entire centre's entry should not be submitted.**

2. **Submission of Amendments Online via WJEC** Portal

   Centres that submit their initial entries through the WJEC Portal must also submit amendments in this way. **Centres which use the Data Transport Application for the main entries, must continue to use the Data Transport Application for all entry/amendment transactions.**

An acknowledgement file (X file) will be sent to centres via the Data Transport Application once an entry or amendment file has started to be processed (e.g X6819940.x01).

ENTRY FEEDBACK

Once entry and amendment files have been submitted to WJEC for processing, the information will be visible on the WJEC Portal within 48 hours, providing that processing for that exam series has started. Centres are required to check their entry data to avoid any late changes which would incur late amendment fees, and to ensure the dispatch of correct examination materials.

All up to date entry information can be viewed under All Services – Entries & Registrations:

Subject totals
Candidate entries
Candidate entries by subject

Candidate **Statements of Entry** for each candidate are available to download from the WJEC Portal under Entries & Registrations.

For entries and amendments that have been submitted using the Online facility on the WJEC Portal, the 'Print By Candidate' button on the Online Entries page can be used to print a list of all submitted and unsubmitted candidate and subject entries entered onto the system.
N.B It will therefore include all entries and amendments which have been created on the Online facility, however these may not have been submitted by the centre or processed and accepted by WJEC. Centres should therefore check the sections listed above for confirmed entries.

It is vital that centres check the WJEC Portal to ensure all information has been processed by WJEC, regardless of entry method used. Centres using the Data Transport Application should not rely on their MIS as this will only show the entries/amendments which have been submitted, rather than validated and processed by WJEC.

Any validation errors will be communicated back to centres via email. Please ensure amendments are submitted as soon as possible to rectify these errors and avoid late fees.

Back to Contents

CANDIDATE ENTRY INFORMATION

The notes in this section apply to both entry methods.

CANDIDATE NUMBERING

Centres must assign a candidate number to each candidate. This is a unique four-figure number within the range 0001 to 9999. **(The number 0000 must not be allocated.)**

Centres should use the same four-figure candidate number when entering a candidate for any examinations offered by any of the other Awarding Bodies or Groups. Once submitted an entry cannot automatically be transferred from one candidate number to another, the candidate must be withdrawn from the incorrect number and re-entered under the new number. This change will therefore have cost implications if made after the amendment deadline.

CANDIDATE PERSONAL DETAILS

The correct candidate details, such as name, sex and date of birth, must be used across all examination levels, series, and all awarding bodies for the same candidate. Problems frequently occur where centres use variations of a candidate's name (e.g. an additional middle name) or an alternative spelling.
Please ensure that the full legal name is used for every examination series as this is the name that will appear on the candidate's certificates. The name, date of birth, and the UCI will be used to track candidates in unitised examinations.

Guidance on the specific format when entering candidate details using the Data Transport Application (A2C Migration Tool) can be found in the "**Formats for the Exchange of Examination Related Data, Version 14**". Should the need to abbreviate a candidate's name to meet the maximum allowance of 40 characters create difficulties for any of your candidates, special arrangements can be made to record their full names on certificates by e-mailing Entries**.** If a candidate has accents or special characters in their name, please email the details to Entries prior to results day so that they can inserted before certificates are printed.

An entry without a valid date of birth cannot be accepted.

CANDIDATE STATUS

When compiling candidate entries, it is necessary to distinguish between internal candidates (i.e. those on the full or part time roll of the institution) and external/private candidates (i.e. those who are not students at the institution, but for whom the institution is providing examination accommodation and/or assessing and authenticating non-examination/coursework/controlled assessments).

Centres should enter a candidate who has not received any tuition at the centre as a private candidate. A candidate who is re-sitting a qualification should be entered as a private candidate if he/she is not receiving any tuition at the time entries are submitted.

If submitting entries using Data Transport Application (A2C Migration Tool), private candidates must be identified in the file by inserting 'P' in position 3, Candidate Status. Please refer to "**Formats for the Exchange of Examination Related Data, Version 14**," for further guidance.

If submitting entries via the WJEC Portal, select Yes or No from the drop-down box for External/Private Candidate.

Detailed information relating to the procedures for private candidates can be found on our WJEC and Eduqas websites.

Back to Contents

UNIQUE CANDIDATE IDENTIFIER (UCI)

All candidates entered for examinations require a **Unique Candidate Identifier (UCI)** number. The unique 13-character candidate identifier must be included, in full, on all entry and amendments file. Entries received without the UCI will not be accepted.

Please see information on the JCQ website regarding UCI numbers. If your centre is entering candidates who have previously sat units / subjects at other centres, the original UCI should be obtained from the original centre.

A UCI is made up as follows:

6	**8**	**9**	**9**	**9**	**0**	**2**	**5**	**2**	**0**	**5**	**8**	**R**
Centre number where the candidate enters his/her first unit					**Board Identifier '0'**	**Academic year in which the first unit entry is submitted, e.g., 25 for 2025.**		**Four-digit candidate examination number**				**'check' digit allocated using previous 12 digits.**

Centres who are unable to generate the full 13-digit identifier are advised that an online check digit generator is available on the WJEC website.

UNIQUE LEARNER NUMBER (ULN)

Unique Learner numbers are 10-digit codes allocated and held by the Learner Records Service (LRS). More information about ULNs can be found on the Learning Records Service (LRS) website:

A ULN is mandatory for candidates entering for the National/Foundation Skills Challenge Certificate and Advanced Skills Baccalaureate Wales Qualification.

Back to Contents

QUALIFICATION STRUCTURES: UNITISED OR LINEAR

WJEC qualifications follow either a unitised or linear structure. The structure of the qualification will affect the type and number of entry codes that must be submitted to ensure that each candidate is correctly entered. The entry for each subject/unit is recorded by means of a six-digit entry code.

UNITISED SUBJECTS

Some qualifications are "unitised" in structure – i.e., candidates sit a number of separate units, sometimes across different examination series, to complete the award. For these subjects, two separate types of entry are required:

Unit Entry: A separate entry must be made for each individual unit attempted by candidates. This requirement applies not only to the formal "written examination" units, but also those related to non-examination/coursework and controlled assessments ***(centres frequently overlook the non-examination assessments when making entries and this will lead to rejections at entry stage).***

Cash-In Entry: When candidates wish to obtain an overall subject award for any unitised subject, a separate "Cash-In" entry is also required. The relevant Cash-In code should be entered alongside the individual unit entries. If a candidate has completed all the required units for a subject award but does not submit a Cash-In entry, they may either:

- Enter for the Cash-In after the publication of results. Late Cash-In entries are entered via WJEC Portal under Entries & Registrations - Late Cash-In Entries**.** An additional fee is payable in these circumstances.

Or

- Enter for the subject award at a subsequent series, provided the subject is still available and any terminal requirements are met.

Combination of Units

Centres are urged to check carefully that every candidate is entered for the correct combination of units. The subject specification will provide details of available combinations.

Terminal Requirements

Our Level 1 / Level 2 Technical Awards (first teaching from Sept 2022) and our WJEC GCSE (Wales) unitised subjects have a terminal requirement.

For Level 1 / Level 2 Technical Awards, there is a 40% terminal requirement which must be satisfied by the externally assessed unit. This means that if a candidate is cashing in, they must also be entered for the externally assessed unit in the same series. Only the result from the attempt made in the series in which the candidate is cashing in the qualification will be used in calculating the final overall grade, even if this is lower than a previous attempt.

For Legacy WJEC GCSE (Wales) unitised specifications candidates must be entered for at least 40% of the total assessment in the terminal session (i.e., the exam session in which the award is cashed in), with the exception of GCSE Welsh Second Language. Please refer to the subject page in January 2027 for further information.

For the new GCSE Made for Wales specifications, as the terminal requirements differ, please refer to the relevant specification for these requirements.

Back to Contents

LINEAR SUBJECTS

All Eduqas AS, A Level and GCSE qualifications (and some WJEC Wales qualifications) are linear in structure. Centres should enter candidates for a single-entry code, which will automatically enter the candidate for all relevant components of the qualification. For linear subjects, 100% of the assessment is taken at the end of the course.
Following certification, candidates can reuse an NEA mark by 'carrying forward' the mark to a future series, within the life of the specification. Please note that if the entry is withdrawn the candidate has not certified and therefore a carry forward is not possible.

QUALIFICATION REFORM IN WALES

New Made for Wales National Qualifications are being introduced for first teaching from September 2027, at which point many of our existing qualification will be withdrawn.

September 2026 will be the final time centres in Wales should begin delivery of a two-year course for the current Entry Level Certificates, Entry Pathways qualifications, Level 1/2 Vocational Awards (including Technical Awards), Foundation/National Skills Challenge Certificate. Summer 2028 will be the final full assessment opportunity. There will be a final resit opportunity available in January 2029 subject to demand. The resit opportunity will only be available to those who have previously cashed-in the qualification prior to January 2029. Please refer to Circular 133 issued in March 2026.

For information regarding New Made for Wales GCSEs and final assessment opportunities for WJEC GCSE legacy qualifications, please refer to circular 94 issued in March 2026.

For further information regarding the qualification reform in Wales please refer to Qualifications in development on our website.

Back to Contents

WELSH MEDIUM & DUAL LANGUAGE (ENGLISH/WELSH) ASSESSMENT

SUBJECTS TAKEN THROUGH THE MEDIUM OF WELSH

For all subjects at all levels taken through the medium of Welsh, the relevant full six-digit code should be inserted. These are listed under the 'Welsh medium' column heading.

Where a Welsh version of a question paper is required for a designated Eduqas specification, the relevant form available on our website should be completed and submitted by the appropriate deadline.

WELSH SECOND LANGUAGE, WELSH (FIRST LANGUAGE) AND WELSH LITERATURE

A candidate may not take at the same sitting:

a) The Made for Wales GCSE Cymraeg Language and Literature with the Made for Wales GCSE Core Cymraeg or Level 2 Award in Additional Core Cymraeg.

b) Welsh Second Language Advanced or Advanced Subsidiary with Welsh (First Language) Advanced or Advanced Subsidiary.

INTERNAL ASSESSMENT

Candidates may present portfolio/internally assessed evidence entirely in Welsh, entirely in English, or in a combination of both English and Welsh. Awarding bodies are not required to specify the proportion of evidence to be presented in either language where candidates present evidence for internal assessment in two languages (Welsh and English).

EXTERNAL ASSESSMENT

Where candidates have been entered for a test or examination through the medium of Welsh, they may also have access to the English version of the question paper.

Where candidates have been entered for a test or examination through the medium of English, they may also have access to the Welsh version of the question paper. In such circumstances, centres will be obliged to request Welsh versions from WJEC well before the date of the examination.

Candidates should normally be entered for the externally assessed parts of a qualification in either Welsh or English. However, where needed to reflect the language in which the candidates were taught, candidates may sit some units/components of a qualification in English and others in Welsh.

Back to Contents

PRELIMINARY ENTRIES

WJEC requires advance notification of the likely candidate numbers to be entered for the June series some months before the final entry deadlines. This information is used to calculate the despatch of early exam papers to centres, pre-release materials and examination stationery (answer booklets).

Preliminary Entries are required only for the May/June series of examinations and must be submitted by the 10th October 2026:

Examination Type
GCE A/AS
GCSE (Including new Made for Wales specifications)
Level 1 Certificate in Latin (Under GCSE)
Level 2 Certificate in Additional Mathematics (Under GCSE)
Level 2 Additional Core Cymraeg (Under GCSE)
Level 1 / Level 2 Vocational and Technical Awards
Level 3 Applied Certificates and Diplomas
Entry Level
Health and Social Care and Childcare

Preliminary entries must be submitted online via the WJEC Portal. The system will prompt centres with the actual candidate numbers entered in the previous series and will ask for these to be confirmed or amended. Only in cases where the entry will vary by more than 10% is any amendment required.
Where new specifications are available for the first time, centres will need to input the numbers of candidates that will be entered.

If your centre does not submit any preliminary entries, or if you do not include preliminary numbers for any subject for which you then go on to submit final entries, you may not receive all the required assessment materials and/or examination stationery. If you are in any doubt about whether candidates will be entered for any specific subject/option, you are advised to include a small notional amount (e.g. 5) to ensure that appropriate materials are despatched to you.

Back to Contents

BASEDATA

Centres submitting entries via Method A (Data Transport Application) will first need to download the basedata for the relevant series from the main WJEC website:

Basedata

Examination Type	Series	Series Code	Board Code
GCSE	November 2026	BG	40
Health & Social Care and Childcare (Wales)	November 2026	BH	40
National/Foundation Skills Challenge Certificate	New Registrations	9W	41
T Level	Please refer to T Level Section.		

ENTRY RESTRICTIONS

Eduqas GCSE English Language and GCSE Mathematics

These subjects are available to learners who have reached the age of 16 on or before 31 August 2026.

WJEC GCSE

Please see the subject page for any restrictions in the November series.

Welsh Baccalaureate

Registrations are not required for the Advanced Skills Baccalaureate Wales, teaching from September 2023.

- Additional/amended subject for an existing candidate.
- Option changes.

Late fees are **not** charged for amendments to candidate names, dates of birth, or sex. There are also no late fees for any withdrawals of subjects/candidates.

* Late fees do not apply to the practice units in the Level 2 Children's Care, Play, Learning and Development: Practice and Theory qualification.

**Very late fees apply to Level 2: Principles and Contexts and Level 3: Principles and Contexts exams only

Information relating to entry fees can be found on the WJEC or Eduqas websites.

Unit 3c	A Study of a Period in World History - Modern	3130UM	3130NM

QW	C00/4967/9

Notes

Early entry submission is required by 30th November for Made for Wales GCSE History Unit 2, which is assessed on-screen. Please refer to circular 158 issued in July 2026 for further information.

The combination of options selected for Units 1, 2 and 3 must include one medieval, one early modern and one modern unit.

In Unit 4, centres can choose to repeat a time period previously studied in Units 1, 2 or 3. However, the topics chosen for study in Unit 4 must not replicate or overlap with the content of any of the other selected units.

The examinations for Units 1 and 3, and the submission of Unit 2 will be available for the first time in June 2027. The submission of Unit 4 will be available for the first time in June 2028. Each assessment will then be available every June series. The qualification will be awarded for the first time in June 2028.

T LEVEL REGISTRATIONS

It is a requirement of the T Level in Building Services Engineering Qualification that centres must register candidates embarking on the course with WJEC.

Each registration must include candidate personal details (name, date of birth, sex) Unique Candidate Identifier (UCI), Unique Learner Number (ULN), and the registration code for the T Level in Building Services Engineering Qualification.

Centres must submit registration details either by using the Data Transport Application or via the WJEC Portal. **Registration details must be submitted for every candidate embarking on the T Level.**

BASEDATA

Centres submitting entries via Method A (Data Transport Application) will first need to download the basedata for the relevant series from the main WJEC website –

https://www.eduqas.co.uk/home/administration/entries/basedata/

Examination Type	Series	Series Code	Board Code
T Level Registrations	September 2026	9Z	41
T Level Qualification	November 2026	BZ	41
T Level Qualification	June 2027	6Z	41
